### ■ FRONT/REAR

"FRONT/REAR" is used to choose the appropriate projection scheme from Front and Rear:

FRONT : Choose this option if pictures are projected from the front of a reflective screen.

REAR : Choose this if pictures are projected from the back of a translucent screen.

### ■ DESK/CEILING

DESK/CEILING is used to choose the appropriate projection scheme from Desk and Ceiling:

DESK : Choose this option if the projector is installed on a floor-standing base.

CEILING : Choose if the projector is installed on the ceiling using the optional ceiling mount bracket.
